

# Centrifuge

## ALUMINUM PLUS

- ▶ Heavy duty centrifuge box custom built out of 1/8" aluminum sheets. Built to hold up in the most extreme conditions to suit the purpose they're built for. Ran by a VDO 12 volt motor at 2,500 RPMs and built in pre heater that heats up to 120 degrees F in just minutes. These units are 18" wide x 21" long x 10" high for compact storage and they close up with heavy duty latches that seals... High or low heat and adjustable motor speed. Look at our web site or call for more information.
